

# ABANDON MEDICAL DEPARTMENT

**PROJECT:** Rumpelstiltskin

**ATTENDING PHYSICIAN:** Dr. Morty North

**PRISONER:** Stephan W. [ID-A789012]

**AGE:** 47

## DIAGNOSIS

Severe nutritional deficiencies, Chronic dehydration, Multiple infected self-inflicted wounds, Extreme malnutrition, Severe muscle wasting, Progressive multi-organ damage

## HISTORY

### COURSE OF DETERIORATION

Initial: Admitted following staged death declaration in Blisswood, Days 1-50: First signs of physical deterioration, Day 130: Development of severe nutritional deficiencies, Day 180: Critical malnutrition  
Current Status: Systemic physical decline

## PHYSICAL STATUS

- Weight: 35 kg (↓)  
Height: 156 cm  
Blood Pressure: Unstable  
Heart Rate: Irregular  
Temperature: Low-grade fever
- Organ Status:  
Severely impaired renal function  
Critical liver function values  
Cardiac arrhythmias  
Electrolyte imbalance  
Severe muscle atrophy

## OBSERVATIONS

### INJURIES:

- Deep scratches to arms and legs
- Open scalp lacerations (self-inflicted)
- Hair pulled out in clumps
- Fingernails bitten down to the nail bed
- Abrasions to both knuckles

## INTERVENTION

No medical intervention authorized.  
"Natural deterioration" documented for research purposes.  
Rate of physical decline remains consistent with projections.  
Further progression will be monitored solely for documentation purposes.

## MEDICATION
